What I offer (III)

- **Lean Management**
 - Value Stream Analysis
 - 5S-Audits
 - Gemba tours
 - Waste reduction
- **Other Abilities**
 - Translations GER → ENG
 - Intercultural expertise in German and Japanese

Previous Projects (I)

Visteon Electronics Europe, Karlsruhe

Managed APQP activities for electronic components (circuit boards, passive and active components) and plastic parts (cockpit modules and glass) according to AIAG guidelines.

Implemented supplier development strategy including APQP and PPAP processes.

Carried out process audits to VDA6.3 and process acceptance at suppliers

Processed escalated supplier rejections from sister plants in Europe.

Trained and mentored co-auditors.

Previous Projects (II)

TopQM-Systems, Mosbach

Supported customers in Germany and Czech Republic with preparation for process audits.

Training of process auditors to VDA6.3 in Germany, USA and Mexico for customers Bosch, Mahle, TÜV Süd, Continental, Aptiv (formerly Delphi), NSK and Kern-Liebers.

Presentation of information seminars for ISO 19011 and IATF 16949 in USA, Mexico and Finland.

Carried out of process audits on behalf of third-party clients in pressure die casting and plastic injection moulding sectors.

Previous Projects (III)

Hanon Systems Germany, Kerpen

Managed suppliers for HVAC, Exhaust and Turbocharger components.

Integrated more than 50 new suppliers into the existing supplier management structure and successfully achieved MRD.

Carried out project planning for capacity expansion of a complex assembly line and ensured capacity verification using run-at-rate methods.

Audited electrical and electronic component manufacturing processes to VDA6.3 standard.

Benchmarked competitors' organisational structures in purchasing and supplier management.

Previous Projects (IV)

AMG GMBH, Affalterbach

Supported AMG with sorting out quality problems on-site at problematic suppliers, achieving an overall reduction in visual defects.

Managed process improvements including installation and release of injection moulding equipment.

Led daily and weekly conference calls between customer in Germany and supplier in UK.

Carried out potential analyses and process audits to VDA6.3 at suppliers in Italy and Hungary.

Created process descriptions for purchasing and quality activities for a new project intended to be launched in 2021.
